

January 8, 2018

Dear Resident,

Each year, the District reviews its water and sewer rates to determine what adjustments will be necessary to sustain quality service and meet our financial obligations. We bring to your attention that the District's sewer is contracted for treatment through the City of Columbus and we are impacted by their increases as well. This year, a 0.25% increase will apply to both Minimum Water and Sewer Service Charges. Any water and sewer usage above 4,000 gallons per month, a water and sewer rate increase of 1.5 % will apply to the respective incremental gallon rates.

The following water and sewer rate increases are effective January 1, 2018. These rates will be reflected on your February 2018 bill:

USAGE PER MONTH	NEW RATES 2018	
	Water Minimum Charge	Sewer Minimum Charge
Minimum Monthly Service Charges [Gallons 0 to 4,000]	\$25.96	\$43.95

INCREMENTAL GALLONS <i>For usage over 4,000 gallons, apply rates to incremental gallons used and add to minimum charges</i>	RATES PER GALLON
